To Whom it may Concern,
I would like to voice my concerns regarding NAB's petition 04-160. Even though I currently cannot receive local programming (weather and traffic info) I very much look forward to the time when it's available. It is so very difficult to get the information that you need in a reasonable amount of time on the local broadcast stations. You spend 15 minutes searching for a channel broadcasting the information. Then, find out that you just missed it and it will be 15 more minutes till the next time it is broadcast. This is not acceptable when there is a better way. Please allow XM to broadcast local content, specifically, weather and traffic reports and therefore oppose HR 4026.

Thank you.
